

Sasha Nikitin

Senior Product Designer

Yerevan, Armenia | +374 41 959 464 | sashanikitindesigner@gmail.com | [linkedin.com/in/sashanikitin](https://www.linkedin.com/in/sashanikitin) | sasha-nikitin.su

SUMMARY: Senior Product Designer with 10 years of design experience, including 8 years in product design, specializing in communication systems and monetization mechanics for games and apps. Experienced in driving core business metrics: boosts user retention through multiplayer engagement systems and increases revenue through live-ops and direct monetization features.

SKILLS:

Product Design & Strategy: User Research, Product Thinking, Roadmapping, Stakeholder Management

UX/UI & Prototyping: User Flows, Wireframing, High-Fidelity Design, Interactive Prototypes (Figma, Principle)

Design Systems & Processes: System Migration (Sketch to Figma), UI Kit Creation, DesignOps

Cross-functional Leadership: Mentoring, Art Direction, Collaboration with PMs & Engineers

Industry Expertise: B2C Social/Messenger Platforms, Gaming (PC, Console, Mobile), Web Applications

PROFESSIONAL EXPERIENCE

MY.GAMES (February 2022 — Present)

Yerevan, Armenia

International game developer and publisher.

Product Designer

- Designed UI systems and interactive prototypes for War Robots, a AAA third-person shooter with over 300 million players, ensuring consistency across iOS, Android, and Steam platforms.
- Improved team efficiency by restructuring design architecture: consolidated 50+ design files into 25 organized, version-controlled files and created a 700+ icon library adopted by the game design team.
- Authored and maintained Game Design Documents (GDDs) to bridge vision and execution, ensuring alignment across cross-functional teams of designers, artists, and developers.
- Prepared and exported production-ready UI assets for Unity, supporting a live product with over \$1B in lifetime revenue.

NOOMEERA (June 2020 — February 2022)

Moscow, Russia

Startup developing social and communication platforms.

Product Designer

- Owned UX design for a social networking app, focusing on core feed, messaging, and privacy features, which increased the App Store rating from 3.6 to 4.5.
- Migrated the design workflow from Sketch to Figma and designed a custom admin panel to support content moderation.
- Led the end-to-end design of the new Meera messenger from concept to launch, architecting 40+ core features (calls, group/channel chats, search) with complex, multi-screen user flows.
- Owned usability testing and customer development (CustDev) across the product lifecycle, using user feedback to inform design decisions.

SIBDEV (October 2018 — June 2020)

Krasnoyarsk, Russia

Web and mobile development studio.

UX Designer

- Led UX design of complex web and mobile applications, delivering 15+ projects across corporate websites, e-commerce, and long-cycle SaaS platforms.
- Designed Kisanet, a competition management system for the Finnish Gymnastics Federation, supporting event registration, judging, and real-time tracking for organizers, judges, and spectators.
- Created user flows, wireframes, and high-fidelity mockups optimized for implementation in React, Vue, and React Native, ensuring smooth developer handoff.
- Founded and organized a series of 5 local IT meetups, fostering professional networking and community growth.

TVK6 (June 2016 — June 2018)

Krasnoyarsk, Russia

Regional television channel.

Motion Designer

- Created dynamic broadcast graphics, including daily infographics and weather segments.
- Collaborated on channel branding and on-screen animations for news programming.

CO-PROFESSIONAL LEADERSHIP

Institute of Business and Design (B&D) (Lecturer, September 2022 — Present)

Remote

- Develop curriculum and lecture on UX theory and practical application.
- Conduct practical seminars and supervise student project work.
- Evaluate student design work and performance.

EDUCATION

Krasnoyarsk State Pedagogical University named after V. P. Astafiev

Krasnoyarsk, Russia

Bachelor's Degree in Teaching (Teacher Education) (2013 – 2018)

CERTIFICATION/COURSES/LICENSES

- UX Research — Bang Bang Education (2024)
- Text in the interface on one-two-three — Bang Bang Education (2023)

ADDITIONAL INFORMATION

- Languages: Russian (native), English (upper-intermediate)
- Community & Leadership: Organized and hosted IT meetups to foster professional networking and knowledge sharing.
- Cross-platform Proficiency: iOS, Android, Web, and Game Engines (Unity)
